

REACH COMPLIANCE

European Union Regulation No. 1907/2006/EC, named REACH (Registration, Evaluation, Authorization and Restriction of Chemicals), has been in force since June 2007. The REACH Regulation applies to all individual substances on their own, all substances contained in preparations, and all substances contained in articles or products that will be manufactured in or placed on the market of the European Union.

Article 33 of the REACH Regulation requires the manufacturer of any article or product to inform their customer if it contains any SVHC (Substance of Very High Concern) with a concentration of greater than 0.1% by weight. The current SVHC Candidate List (ECHA/PR/08/38) contains the following substances, with future permanent additions to be made by the ECHA (European Chemicals Agency):
